# Cosmin Valentin Ionita

Interested in computers and technology, passionate, and dedicated, with a desire to grow and develop. I try to think outside the box and always see the bright side. I consider myself an incurable optimist.

I am a quick and dedicated person, focused on personal and professional growth, with an inclination for problem-solving and computer science, a self-taught front-end developer with over two years of experience writing JavaScript, HTML, CSS, and more than a year using React, Redux, and CSS preprocessors.

Work Experience

May 2019 - Present

Unfortunately, I did not have the opportunity to use my programming skills professionally.

Education

🎓 **Iordache Golescu**
Mechatronics technician

2015 - 2019
